- I'm a creative designer with a strong passion for understanding the needs and goals of the users, through my design process.
- I base my design on real data and conduct A/B testing to achieve the best result.
- I'm a team player and quick learner, I love to work with people and achieve my goals through good communication.

Experience

Exon Media

2021-Current

UI UX | Product Designer

- Responsible for the entire work process of the product including product vision, wireframe, visual design, prototyping and quality release.
- Redesign of the existing websites which led to a 14% increase in sales.
- Building and maintaining a design system, reusable components, color, typography, to enable a smoother process, consistency and faster development.
- Collaboration with the product team to define the product goals, target audience and product requirements to inform the ux vision.
- Work closely with the development team to ensure workflow, smooth communication and make sure we address issues in real time.
